

Immunisation Policy

We recognise, where possible, that children are vaccinated in accordance with their age. If children are not vaccinated, it is the responsibility of the parents to inform the setting to ensure that children/staff/parents are not exposed to any unnecessary risks of any sort. The manager must be aware of any children who are not vaccinated within the setting in accordance with their age.

Parents need to be aware that some children will not be vaccinated in the setting. This may be due to their age, medical reasons or parental choice. Our setting does not discriminate against children who have not received their immunisations and will not disclose individual details to other parties.

Information regarding immunisations should be recorded on children's registration documents and updated as and when necessary, including when the child reaches the age for the appropriate immunisations.

Staff vaccinations policy

It is the responsibility of all staff to ensure they keep up to date with their vaccinations for:

- Tetanus
- Tuberculosis
- Rubella
- Hepatitis
- Polio.

If a member of staff is unsure as to whether they are up-to-date, then we recommend that they visit their GP or practice nurse for their own good health.

Emergency information

Emergency information should be kept for every child and should be updated every six months with regular reminders to parents in newsletters and a reminder notice on the Parent Information Board.

Internal use only
